

NOTICE OF SUBMISSION OF FINAL REMEDIATION PLAN

Date of Notice: March 24, 2022 and March 31, 2022

Notice is hereby given by the Petroleum Storage Tank Bureau (PSTB) of the New Mexico Environment Department (NMED) of the submission of a Final Remediation Plan (Plan) as follows:

1. The Plan proposes actions to remediate a release of petroleum or petroleum products into the environment.
2. The release occurred at the Chevron Red River, 105 East Main Street, Red River, New Mexico.
3. The Plan proposes to implement injection of Regenesis PetroFix to address residual groundwater contamination at the Chevron Red River site located at 105 East Main Street, Red River, New Mexico. Regenesis PetroFix is a “trap-and-treat” technology which is an activated carbon that will remove hydrocarbons from the dissolved phase by absorbing them onto activated carbon particles resulting in hydrocarbon biodegradation. The remediation goal is to decrease benzene and naphthalene concentrations to below NMWQCC standards eventually leading to a “No Further Action” status.
4. A copy of the Plan can be viewed by interested parties at the NMED PSTB office located at 2905 Rodeo Park Drive East, Building 1, Santa Fe, New Mexico, 87505, and at the NMED Taos field office, 145 Roy Road, Suite B, Taos, NM 87571. Due to policies in place in response to the COVID-19 pandemic, arrangements must be made 48 hours in advance for an in-person viewing of the Plan. Please contact the NMED PSTB project manager, Curtis Landers, by telephone at (505) 470-5277 or email at curtis.landiers@state.nm.us to arrange a viewing. In addition, the Final Remediation Plan and all applicable data may be viewed at the following website: <https://cloud.env.nm.gov/waste/pages/search.php?search=%21collection2663&k=c9d29498f4>
5. Services may be arranged for translation of documents, for interpreters, and for obtaining services for persons with disabilities by contacting the PSTB Project Manager. TDD or TTY users, please access phone numbers using the New Mexico Relay Network, 1-800-659-1779 (voice) and 1-800-659-8331 (TTY users).
6. Comments on the plan may be sent to the PSTB Project Manager: by mail at New Mexico Environment Department Petroleum Storage Tank Bureau, Attn: Curtis Landers and PSTB, NMED 2905 Rodeo Park Drive East, Building 1, Santa Fe, NM 87505; by telephone at (505) 470-5277; or e-mailed to: curtis.landiers@state.nm.us. Comments sent to the project manager must also be mailed to the NMED Secretary at New Mexico Environment Department, Attn: Secretary Kenney, PO Box 5469, Santa Fe, NM 87502-5469. Comments must be delivered by April 21, 2022. Please include the name of the site, “Chevron Red River, 105 East Main Street, Red River, New Mexico,” to ensure comments are correctly assigned to the site.
